

Speed Man BASIC

SPEEDMAN[®] BASIC
THE ELECTRICALLY POWERED
ENTRY-LEVEL SYSTEM

COMPACT, QUICK AND EASY TO HANDLE

SpeedMan® Basic – easing the workload in the packing station

The SpeedMan® Basic is a compact electrically powered filling system for consignors who wish to speed things up through automation. An efficient entry-level model, the system accelerates filling of cartons for product protection. The SpeedMan® Basic is operated with a pedal switch, making it user-friendly. Its high feed velocity of 1.5 metres per second means that users with a low material requirement can also accelerate shipping processes.

Thanks to its compact design, the SpeedMan® Basic can be integrated without difficulty in the smallest of spaces in existing packing environments. The SpeedMan® roll can be positioned appropriately on the mounting of a variety of frame versions or placed directly on a shelf. Perfect ergonomic conditions can be created on the packing table with the SpeedMan® Basic, thanks to its individual integration options.

Your one-stop provider – Made in Germany

Production of the system and paper conserves resources, conforms to the latest technical standards and is realised exclusively in Germany with the assurance of ISO 50001 certification.

100% recycled paper

SpeedMan® paper is a Blue Angel award winner. It consists of 100 % recycled paper with no added virgin fibres, optical brighteners or refining agents which are harmful to health.

Technical data

System

Width:	approx. 390 mm
Depth:	approx. 390 mm
Height:	approx. 210 mm
Weight:	approx. 9 kg
Feed:	1.5 m/s
Noise level:	< 70 dB (A)
Discharge height:	variably adjustable, depending on frame
Stand variants:	Roll frame Floor frame Table frame Pivot arm
Accessories:	Pedal switch with cable

SpeedMan® paper

Grammage:	70 or 90 g/m ²
Basis:	100 % recycled paper
Weight:	approx. 11 kg per roll
Delivery unit:	rolls on a pallet
Environmental certificates:	Blue Angel
Country of manufacture	Germany
Paper/System:	Germany

Optimum integration: Differing frame versions facilitate efficient and ergonomic working.
