SPEEDMAN® FLEX

**EXTRA COMPACT & FLEXIBLE –
WITH HIGH SPEED**

SPEEDY & FLEXIBLE, PERFECT INTEGRATION

SpeedMan® Flex – small and ergonomic, with teaching function

The SpeedMan® Flex is a high-speed paper filling system for different paper qualities. It is extremely variable, ideal for decentralised use and, where space is very restricted, can be integrated particularly effectively in existing workstations. It is the most rapid system available, producing filling material at speeds of up to 2.8 m/s. The SpeedMan Flex® has a cutting function and can also be operated in extraction mode. Delivery lengths can be entered directly at any time in the workstation using the teaching function – with no programming necessary.

With a choice of two attachments (for the SpeedMan® roll or ComPackt® paper), it enables the flexible use of different paper qualities to suit requirements. The paper used is a Blue Angel award winner being manufactured as 100 % recycled paper for you as part of one of our Eco-friendly solutions.

Your one-stop provider – Made in Germany
Production of the machine and paper conserves resources, conforms to the latest technical standards and is realised in Germany with the assurance of ISO 50001 certification.

100 % recycled paper
SpeedMan® rolls and ComPackt® paper are Blue Angel award winners. It consists of 100 % recycled paper with no added virgin fibres, optical brighteners or refining agents which are harmful to health.

Technical data

System		SpeedMan® rolls/ComPackt® paper	
Width:	approx. 400 mm	Grammage:	70 or 90 g/m^2
Length:	approx. 530 mm	Basis:	100 % recycled paper
Height:	approx. 210 mm	Delivery unit:	33 SpeedMan®
Weight:	approx. 23 kg		rolls on a pallet
Feed:	0.6–2.8 m/s, continuously adjustable		or ComPackt® paper
Discharge height:	Variably adjustable	Environmental certificate:	Blue Angel
Noise level:	< 75 dB (A)	Country of manufacture	
Stand variants:	Roll frame	Paper/Machine:	Germany
	Floor frame		
	Table frame		
	Pivot arm		
Accessories:	Roll reservoir		
	Stack reservoir		
	Deflector
